

Cyber Security Consultancy

Proposition Overview

Effective cyber security is the bedrock of digital transformation

Block is passionate about mapping and delivering an ever-evolving cyber journey, and the path to effective governance, risk management and compliance is underpinned by sound strategy. Intimate knowledge of both our clients' environments and the emerging threat landscape allows us to plan and deliver effective assurance.

Our Cyber Security consultancy service is a specialised and practical solution to help organisations increase their cyber maturity levels, allowing businesses to increase resilience and gain assurance through the mitigation of threats and risks.

At a glance

- ✓ We'll conduct Gap assessments to help you to understand your cyber maturity and risk levels of your organisation, and potential acquisitions.
- ✓ We'll design and implement strategies to help you embed a successful cyber security operating model throughout the organisations.
- ✓ We'll always acting as a trusted extension of your team, supporting your day-to-day activities and ensuring cyber security is a core enabler.

Problem solved

With the exponential growth of data breaches and malicious attacks, organisations need to employ the most appropriate cyber security controls available –but with a wide range of options available, what is appropriate? Our experienced professionals make cyber security accessible and logical, supporting customers with solutions that work.
